Effective July 2011, a new tool is available to assist you in reporting minor crime and safety incidents: UCSF Police Department On-line Crime Reporting.

This web based crime reporting service is available at: http://police.ucsf.edu/report_crime/start-report.html

UCSF Police will continue to provide effective and responsive police service 24 hours per day, every day. On-line crime reporting increases our ability to better serve the UCSF community by enabling a broader range of reporting options and adding convenience for reporting minor incidents. As always, should you prefer to report an incident in person, an officer will respond to assist you.

On-line crime reporting is fast, easy and convenient. All you need is an internet connection. Quick and convenient reporting increases the likelihood that crimes will be reported which increases the likelihood that we can more effectively resolve problems. Further, self-reporting minor problems, enables officers to increase proactive patrol and problem solving for our growing community as a whole.
