

LETTER OF PROMULGATION

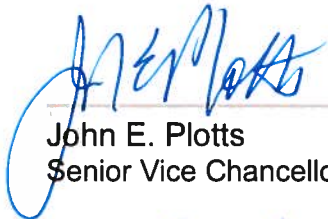

In the event of a natural, technological, or manmade emergency/disaster including terrorist acts affecting the University of California San Francisco, we must be prepared to implement plans and procedures to protect lives, safety and property.

The purpose of this plan is to provide direction and guidance to the University of California San Francisco and supporting agencies. It constitutes a directive for this enterprise to prepare, plan, mitigate risks and hazards and execute response and recovery emergency tasks to ensure maximum survival of the population (human and animal), property, research, academic, and critical/essential functions and services including healthcare in the event of a disaster or other major emergency.
