INSTRUCTIONS

- Definitions of citizens' complaints and the method of their calculation should be determined by each police agency under Penal Code 832.5, which requires police agencies to establish procedures to investigate such complaints and make written description of the procedures used.
- Citizens complaint information should adhere strictly to data elements named in Penal Code Section 13012(e) and be limited to the total number of such complaints, the number of alleging criminal conduct of either felony or misdemeanor, and the number sustained in each category.
- The primary unit of count should be the actual event. An event is defined as an occurrence of alleged misbehavior which has unity of time, place, and behavior. In some circumstances where there are multiple alleged victims, consideration should be given to modifying the counting procedure to account for the number of victims.
- Enter the number of complaints reported during the year in the reported column opposite the type of complaint which properly identifies it.
- Enter the number of complaints unfounded, exonerated, and not sustained during the year in the unfounded column opposite the type of complaint which properly identifies it.
- Enter the number of complaints sustained during the year in the sustained column opposite the appropriate type of complaint which properly identifies it.
- If you have no reported, unfounded, or sustained complaints to report for the year, write the word none across the face of the report form and return to the Criminal Justice Statistics Center.
