

CLERY DAILY CRIME LOGS – INSTRUCTIONS AND EXPLANATION

The purpose of the daily crime log is to record *all* criminal incidents and alleged criminal incidents that are reported to the UCSF Police Department.

The log is designed to disclose crime information on a timelier basis than the annual statistical disclosures. A crime is entered into the log within **two business days** of when it is reported to UCSF PD. This includes crimes that are reported directly to UCSF PD, as well as crimes that are initially reported to another law enforcement agency who subsequently reports them to UCSF PD.

The crime log contains the following information:

- **Case Number**
- **Reported Date and Time**
- **The Nature of the Crime: Offense/Statute Description**
- **The Location of the Crime: Address or Place Name**
- **The Date and Time the Crime Occurred (“From” and “Through” date and time)**
- **The Disposition of the Case, if Known**

An entry, an addition to an entry, or a change in the disposition of a complaint, will be recorded within **two business days** of the reporting of the information. Note that UCSF PD is not required to update the disposition of a crime log entry if the disposition changes after 60 days have passed.

UCSF PD cases appear as 2015-XXXXXXX

SFPD cases appear as (2-digit year)1-XXX-XXX or (2-digit year)0-XXX-XXX

Alameda County Sheriff’s Department cases appear as month/year-XXX (e.g., 0915-XXX)

Oakland PD cases appear as 14-XXXXXX

UCSF PD may temporarily withhold information *only if* there is clear and convincing evidence that the release of information would:

- Jeopardize an ongoing investigation;
- Jeopardize the safety of an individual;
- Cause a suspect to flee or evade detection; or
- Result in the destruction of evidence.

UCSF PD may withhold only that information that could cause an adverse effect, and UCSF PD must disclose such information once the adverse effect is no longer likely to occur.

The crime log for the most recent 60-day period is open to public inspection, upon request, during normal business hours. Anyone may have access to the log.

List of Dispositions

Note: UCSF PD deployed RIMS (Record Incident Management System) in June of 2018 as its records management system. In October of 2021, some of the dispositions listings were updated to accommodate the California Incident Based Reporting System (CIBRS) as required by the California Department of Justice and the Federal Bureau of Investigations. These changes reflected below.

<u>October 2021- Present</u>	<u>June 2018 – September 2021</u>
Cleared by Arrest	Cleared by Adult Arrest
Cleared by Arrest (Another Agency)	Cleared by Juv Arrest
	Cited (Adult)
	Cited (Juvenile Only)
Cleared by Exception	Cleared Exceptional

Cleared by Arrest: The suspect(s) was arrested, charged with the commission of the offense, and turned over to the court for prosecution (whether following arrest, court summons or police notice).

Cleared Exceptional: In certain situations, elements beyond the control of law enforcement prevent agencies from arresting and formally charging an offender. When this occurs, law enforcement can clear the offense exceptionally. To close an offense exceptionally, the following four conditions will apply:

- Identified the offender.
- Gathered enough evidence to support an arrest, make a charge, and turn over the offender to the court for prosecution.
- Identified the offender’s exact location so that the suspect could be taken into custody immediately.
- Encountered a circumstance outside the control of law enforcement that prohibits the agency from arresting, charging, and prosecuting the offender.

Unfounded: Upon investigation by law enforcement it was determined that the reported offense did not occur.

Open/Active: The incident is currently being investigated by law enforcement, and not enough information has been gathered to close/clear the incident.

Suspended/Pending Further Leads: The incident is not currently being investigated by law enforcement, but not enough information has been gathered to close/clear the incident.

Referred to Outside Agency: The incident has been turned over to another law enforcement agency. As an example, UCSF PD generated an incident report regarding an offense occurring at a non-UCSF location and the investigation was later turned over to the law enforcement agency where the offense occurred.
